PROFESSIONAL SUMMARY

I have completed my bachelor's in technology & design from NIFT. My background includes 5+ years of experience in various B2B and B2C like Product, Service, Medical, Research and E-Commerce based organizations such as Biobrain, AEW and Max Healthcare where I worked as a Sr. UI UX Lead handling cross-functional team collaboration from concept through launch.

WORK EXPERIENCE

UI/UX Lead *Aug 2025 – Mar 2026*

Allied Engineering Works — Contract Basis

- Led UX and UI design for large-scale water and electrical distribution system projects.
- Partially developed frontend components alongside design, bridging design-to-development workflow.

UI/UX Lead *Mar 2024 – Nov 2024*

Tooliqa Innovations

- Reworked and revamped a ResTech product (Biobrain) from the ground up, targeted for Q4 2024 launch.
- Established brand guidelines and a comprehensive design system.
- Redesigned logo and branding, website architecture, product navigation, process flows, and user journeys.

UI/UX Designer *Apr 2022 – Jan 2024*

MAX Healthcare, Noida

- Worked across Product and Marketing departments, managing and collaborating with cross-functional teams.
- Created new feature modules and revamped existing user journeys for the main website and mobile application.

UI/UX Designer *Nov 2020 – Apr 2022*

Work Companion, Impulse, Gurgaon

- Contributed to early-stage product design and UX across multiple internal and client-facing projects.
